

Forever chasing the people you need to organise, inform and schedule?

We can put you ahead of the pack.

Using 3 SMSer will ease the chase and take your business to the next level in communication.

3 SMSer is a messaging service that allows users to send text messages from an easy to use web interface to one or more mobile phones on any mobile network in Australia or 3 Pager.

Convenient and cost-effective, SMSer is a **timesaving service** that makes business communication simpler and faster. SMSer is used extensively by businesses as an efficient way to manage staff and inform clients.

What SMSer can do to help your business.

- › Quickly send an SMS to **one or thousands**.
- › Track the message delivery status of sent messages.
- › Conveniently **pre-book messages** for delivery at a later date and time.

- › Be at work, home, in transit or overseas and log in to SMSer.
- › Easily send SMS to **local and international mobile numbers**.
- › Send and receive SMS from **anywhere in the world** through the SMSer web interface.
- › Establish a shared, centrally maintained address book that is accessed by all of your staff.
- › You decide where your messages are sent from and received, to either your mobile phone or SMSer inbox.

The smarter, easier way to communicate is with the SMSer.

Who uses SMSer?

SMSer is utilised within a wide range of industries, companies, organisations and associations.

- › Businesses of all sizes needing to **swiftly communicate**, schedule staff or market to their customers.
- › Organisations and associations who want to send reminders, group messages to events, meetings, promotions or **bulk messages**.
- › Also individuals sending a quick message or **group text** to colleagues or friends use SMSer.
